TUFF has officially changed it's name from "Uncensored" to "United". The change is in name only and will by no means affect the quality programming you have come to expect from a **TUFF** event. It's simply a way to ensure more exposure and coverage for our festival so that we can reach more filmmakers and wider audiences. Plus now with sister festivals in New York & Los Angeles, the name truly embodies the spirit of what **TUFF** represents.
